

SPIRO® SQUARE X

Portable personal radiation protection in highly polluted environments

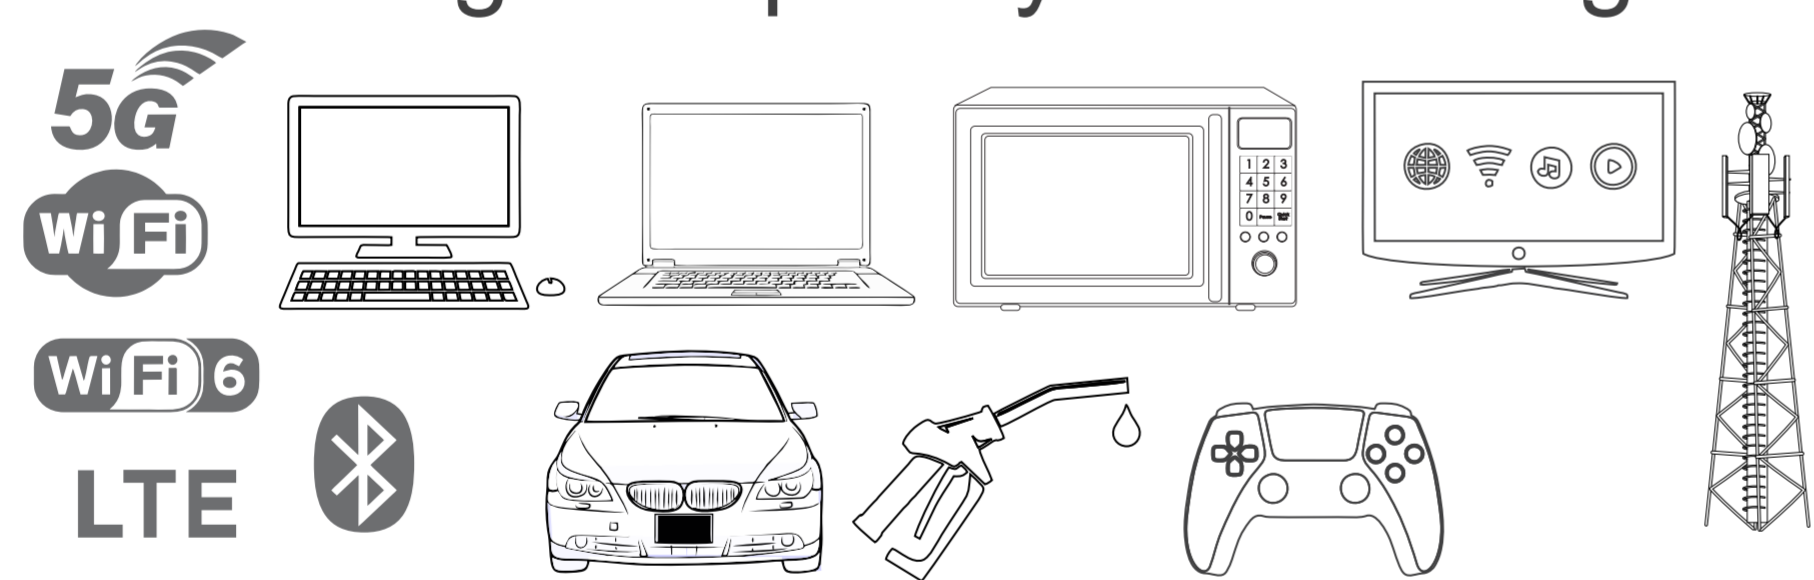

Multifrequency filter protection for RFR / ESD / LF / ELF

SPIRO® SQUARE X is a 3.94-inch x 3.94-inch portable device inches (10 cm x 10 cm), thicker than SPIRO® SQUARE, being more resistant for portable use. This product is capable of protecting the user with a filtering power equivalent to 110% of a SPIRO® DISC, but in a nearer action range, intended for individuals on the move, like someone moving through public areas, children at school, frequent travelers who must visit train or air terminals, public transportation drivers, among others. The product has 21 films for a filtering power of 7. It has a reinforced formulation for telecommunications signals of multiple frequency bands and it is especially recommended as personal protection for technical workers who use multiple electronic devices and frequent places of greater exposure.

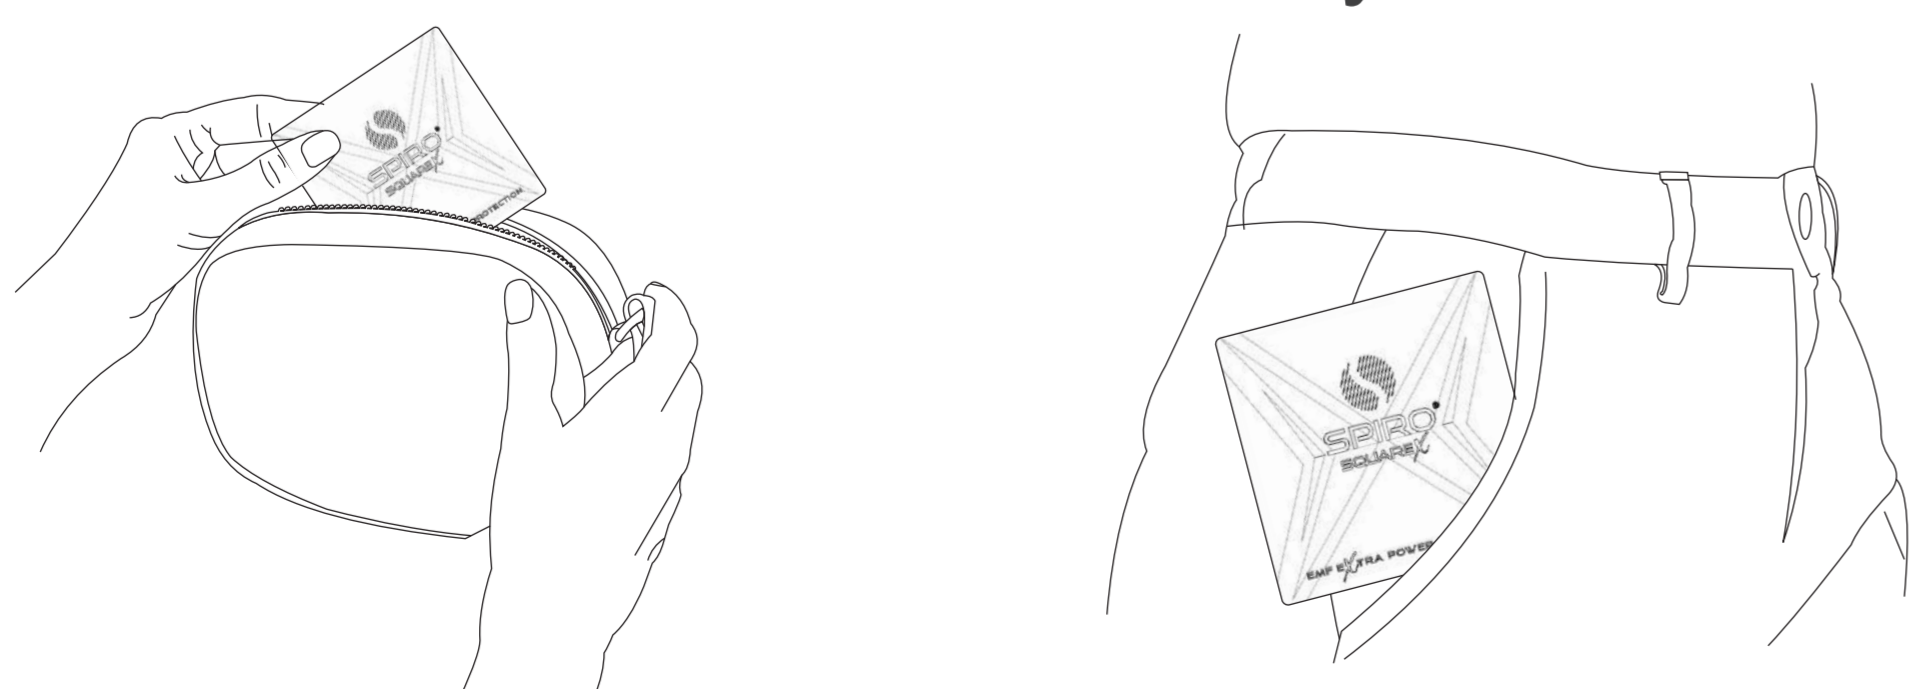

Made For

SPIRO® formulation specialized in multiple wireless Radiation and external devices. The product will protect users from the harmful effects of electrosmog, filtering the radiation emissions you are exposed to as a result of multiple electronic devices operating simultaneously around you and high-frequency wireless signals.

How to use it?

We recommend placing the **SPIRO® SQUARE X** in your pocket, bag, or fanny pack. Keep it near you while you move through public spaces, offices, or outdoors. It is designed for protection from multiple external emissions to which you are exposed daily in highly polluted environments. Take it with you wherever you go.

How does it work?

The **SPIRO® SQUARE X** is based on the patented and scientifically proven NOXTAK® technology: a nanocomposite material (nanotechnology) that absorbs and filters micro-interferences and disturbances in artificially-generated EMF radiation by organizing radiation spins (Spin Radiation Organizer - SPIRO®), which makes it behave the same way as beneficial natural EMFs.

This product contains **21 broad-spectrum SPIRO® films**

Unlike anti-radiation products, **SPIRO® SQUARE X** is the only solution that protects you from all types of radiation emitted by devices, such as Wi-Fi and wireless signals, as well as from the generation of ELF fields, while reducing interference and improving the connectivity, operation, and energy efficiency of your devices.

Benefits of the SPIRO® CARD X

- Wider reinforced protection field around you while you move.
- Filters and protects from the multiple harmful emissions you are exposed to daily.
- Reduces multiple interferences and optimizes connectivity between devices.
- Reduces static and prolongs electronics' useful life.

Studies have shown an improvement in Heart Rate Variability and a better response in situations of work stress and anxiety has also been reported, increasing the benefits with the time of permanent use.
